# SENGKHUN LIM

## SUMMARY

I bring 5 years of experience in complex frontend and backend development as a proficient Full Stack developer, specialising in JavaScript and PHP.

My area of expertise lies in addressing business challenges and tranforming them into solid digital solutions for websites and mobile applications.

I am driven by the opportunity to utilise my expertise to make meaningful contributions to social impact.

## WORK EXPERIENCE

Jul 2021 - Current

Full Stack Developer

Bigwig Advertising & Digital, South Australia

Key Responsibilities:

- Working closely with teammates and the director to develop projects, gather requirements, and find effective solutions.
- Developing mobile apps and websites while also buidling APIs and seamlessly integrating third-party APIs into existing systems.
- Conducting comprehensive security, usability, functionality, capability, and performance testing for Google Cloud hosting.
- Producing end-user documentation to facilitate user understanding and efficient utilization of the developed solutions.

Key Achievements:

- Successfully launched healthcare app for one of the major hospitals in Australia and social media app that rollout for Australia nation wide.
- Completed three complex and modern UI websites for clients in energy, health and construction companies.
